

" As a developer who focuses on inclusivity in our communities, Daniels wants to build spaces for ALL to live in and enjoy – and that means buyers and tenants of all ages and abilities. We believe that every single person should live comfortably and experience a true sense of belonging in their home and communities and not be limited due to intellectual or physical barriers.

The entire team at Daniels is proud to be partners with L'Arche Toronto and be bringing to life their new 4,400 sq.ft home at our Artworks Tower condominium community in Regent Park. This specially designed unit will provide a safe, fully accessible and barrier free space for individuals with intellectual disabilities to call home.

Our partnership with L'Arche demonstrates that incredible things can be done when we join forces to achieve a common goal. By partnering with L'Arche, we are transforming the lives of those living with developmental disabilities, giving them the space and the support that is required to live comfortably within their communities.

We look forward to our continued collaboration and building stronger, more inclusive communities together."

Jacob Cohen  
Chief Operating Officer  
The Daniels Corporation
